

Summit Performance Group is providing the online hotel and airline registration, transportation and event production services for the inaugural **“Road to Recovery Conference and Tribute to Salute America’s Heroes.”** Set for Dec. 8-12 at **Walt Disney World** in Orlando, Fla., it is designed to help and honor 400 seriously wounded and disabled soldiers, airmen and Marines from the Iraq and Afghanistan wars as well as their families. Many of these Purple Heart recipients have been hospitalized in **Brooke Army Medical Center** in San Antonio and **Walter Reed Hospital** in Washington, D.C. **Dick McCann**, of San Diego-headquartered Summit Performance, says the conference will bring together experts from a variety of governmental and private agencies in one place, at one time, to teach the disabled veterans and their families how to use and request the benefits due them.
